### IBT LLC Branch Peru obtains triple certification

- *It is the third company in the group that completes the process of certification of the Integrated Management System*

IBT LLC Branch of Peru, IBT Group Peru company specializing in the execution of construction projects, roads or road infrastructure, ports, airports, sanitation, electromechanics, telecommunications, dams and irrigation, energy, energy supply, turnkey hospitals, turnkey buildings, civil works and projects in general, has certified the implementation of the integrated management system under the standards ISO 9001:2015, ISO 14001:2015 and OHSAS 18001:2007 in order to optimize, standardize and improve the processes of the organization.

The companies of IBT Group offer integral solutions that include the engineering, studies, design and construction of public and private work, up to and including the sale, delivery and installation of equipment, with its required training, maintenance and operation. All this translates into excellent service to its customers, based on maximum quality, safety and environmental protection.

IBT Group is also the main shareholder of the operating companies of the EsSalud Hospital Complexes, Alberto Barton and Guillermo Kaelin, operated under the modality of Public Private Partnership (APP) in Lima.

"The organization's imperative need to improve processes and maximize productivity and competitiveness in order to remain in the increasingly demanding national market has led companies in the group to look for mechanisms to demonstrate to customers the conformity and quality of their products, processes and services. The goal is to identify, prioritize and manage environmental risks, as part of their usual business practices, and manage operational risks and protect workers, through the implementation of Quality Management Systems, Environmental Management, and Health and Safety and Health at work within a world-recognized standard," stated Gustavo Stümpfle, head of quality - Integrated Management System of the IBT Group.

### **About IBT Group**

It is a business group specialized in the development of public works and implementation of construction projects and equipment for public institutions. Its solutions are comprehensive and include engineering,
